

2017 Emerald Ash Borer (EAB) Adult Emergence Map for TreeAzin® Injections and Prism Trap Deployment

TreeAzin® Treatment Start Date

1-888-236-7378
www.bioforest.ca

For best EAB control, use the date range shown as a guide for beginning TreeAzin® injections.
Early-season ash physiology or poor tree health may result in slow uptake and increased injection times.
Deploy prism traps a week before TreeAzin treatment start dates.

BioSIM produced Emerald Ash Borer emergence date map based on a cumulative 250 degree day model at base 10°C (450 degree days at base 50°F).
Source: Environment Canada and NOAA daily weather data as of July 20, 2017 and 30-year climate normals (1981-2010).
